Sanskar Dubey

BIT' 27 | Aspiring Software Engineer

Bengaluru, Karnataka, India

Summary

I am passionate about diving deep into the world of software development, currently focusing on mastering the MERN stack and sharpening my skills in Data Structures and Algorithms (DSA). My ultimate goal is to become a proficient software engineer, leveraging my dedication to continuous learning and problem-solving. With my graduation completed in 2027, I am eager to embark on a rewarding career path in the dynamic realm of technology.

Education

Bangalore Institute of Technology

Bachelor of Engineering - BE, Electrical, Electronics and Communications Engineering · (August 2023 - August 2027)
